

CPD Seminar

## Designing Trees into the Urban Environment

A free CPD Seminar that provides detailed guidance on the essentiality of long term tree planting for sustainable towns and cities.

### Run Time & Schedule

Setup time: 30 minutes  
Duration: 1 Hour

Please allow time at the end for any questions or advice on projects.

### Free Lunch & Networking

All CPD's are offered with a free buffet lunch - a great chance to network with our technical consultants and experts.

### Project Review

Free advice on your current urban tree planting schemes - draw on over 20 years of GreenBlue Urban's experience integrating trees into urban spaces.

## CPD Agenda

- Overview of the key challenges faced when integrating trees in urban landscapes.
- Product design solutions and installation methodologies for successful planting and establishment.
- Case studies spanning 25 years - sharing the lessons learnt by our team and experience gained.
- Includes an insight to root morphology and physiological response to root management.
- The way ahead - what next for urban trees, including WSUDS strategies and design parameters.
- Networking opportunities - share experiences with tree and landscape experts.
